

GREEN CHEMISTRY POSTGRADUATE SUMMER SCHOOL
4th -10th of July 2021
Venice, Italy
www.greenchemistry.school

Dear Sir/Madam,

I'm pleased to inform you that the Green Sciences for Sustainable Development Foundation (www.gssd-foundation.org) is organizing the 13th Edition of the **Post-graduate Summer School on Green Chemistry that will be held from the 4th to 10th of July 2021 in Venice.**

The event is organized in collaboration with the IUPAC **Interdivisional Committee on Green Chemistry for Sustainable Development** ICGCSD (<https://iupac.org/body/041>) and the Venice' Ca' Foscari University (www.unive.it).

Green Chemistry is one of the key sciences of a sustainable development on earth and required for reaching the 17 UN-Goals: IUPAC and ICGCSD are fully aware of their responsibility in working in the direction of **Sustainable Development through Green Chemistry**

This Summer School follows the 12 previous editions held from 1998 to 2020, but will be the first one organized both **on site** and **online**.

For on site students, the School will be hosted in the new Santa Marta Venice' Camplus (<https://www.camplus.it/eventi/rassegna-stampa-2019/inaugurazione-camplus-venezia-santa-marta/>).

Scholarships will be offered to young talented chemists especially from developing countries.

The choice of **Venice**, this extraordinary but delicate architectural masterpiece between land and sea, as **Host city** for the Summer School will offer the opportunity to highlight the emerging connection of Green Chemistry with cultural heritage restoration and conservation field. Info about the 2020' online Edition could be found on the following website www.unive.it/ssgc

During the 2020' Edition, **200 post-graduate students**, coming from all over the world, attended our School and we will expect the same number for the next July' Edition.

Main topics will be:

- Benign synthesis routes
- Green catalysis
- Alternative solvents
- Renewable and green raw materials
- Green chemistry for energy
- Clean processes

- Green Chemistry education

We will be very glad if you would consider participating in the Summer School. **Applications are now open!**

You can find complete information about the School in the Summer School Poster and at the following website: www.greenchemistry.school.

I hope that you and your colleagues are well, and holding up alright with the COVID-19 crisis that has changed all of our lives. Meanwhile, the very important work, to go forward with our lives and research has to be done. Since we are not able to attend in person some events, we can do this by remote.

We would be glad if you could share this information among your colleagues and other academic authorities.

Best regards,

Aurelia Visa
On behalf of Pietro Tundo,
Chair of Summer School on Green Chemistry
